Charleston County Updates Hazard Mitigation Plan

Plan available online for public review and comment

The Charleston Regional Hazard Mitigation Project Committee has updated and finalized the [2009-2010 Charleston Regional Hazard Mitigation Plan](#).

The plan was updated to include hazardous events that occurred between May of 2008 and June of 2009, such as floods, tornadoes and hazardous material situations.

Revisions were also made to the [Hazard Assessment](#) and [Problem Assessment](#) sections of the plan, and to committee member lists due to personnel changes. Local government entities prepared status reports and action plans for 2009-2010 to be included in the plan.

The *Charleston Regional Hazard Mitigation Plan* is necessary for local government entities within Charleston County to be eligible for several pre and post-hazard event sources of federal funding.

The plan was originally developed and adopted in 1999, and has been updated each year since to keep it current with federal requirements.

[Charleston County Government](#) coordinates the committee that updates this plan, which has membership from all [local government entities](#) in Charleston County, including municipalities and special purpose districts, as well as numerous other representatives from private, public and non-profit sectors.
