Release Number: 3193
Date: November 18, 2010

Charleston County's "Living Green" – Kids & the Environment

U.S. EPA Grant funds Charleston County's pollution-reducing education programs

Viewers can watch the next episode of "Living Green," [Charleston County Government's](#) 30-minute green lifestyle TV show, in December. The show airs on channels WTAT Fox 24 and My TV Charleston each month.

This month's topic is "Kids & the Environment," which was filmed at the County's Lonnie Hamilton, III Public Services Building, North Charleston School of the Arts, and Trident Academy.

Tune in to see how kids can contribute to recycling, energy conservation and other environmental causes in and around the community. This month's show features [Cub Scouts](#) and things children can do around the house to help the environment. It also features a mural unveiling in North Charleston to promote clean waterways.

Featured guests in this episode of "Living Green" are:

- Hillary Repik (Stormwater Manager, Town of Mount Pleasant) with Scott Repik, CiCi Repik and Ian Repik
- Cub Scouts Den 1 from Pack 79
- David Joyner (Natural Resources Agent, Ashley Cooper Stormwater Educational Consortium)
- Mary Neal (Environmental Outreach Coordinator)
- Wando High School Presentation of wind turbines, recycling and other activities children can do to help the environment

This "Living Green" episode is scheduled to air on Saturday, Nov. 27 and also on every Saturday in December as follows:

- **Time/TV Channel:**
 - 9-9:30 a.m. on WTAT FOX 24 (Comcast channel 6)
 - 10:30-11 a.m. on My TV Charleston, WMMP (Comcast channel 13)

The County's show is funded through a \$236,498 [U.S. Environmental Protection Agency \(EPA\) Community Action for a Renewed Environment \(CARE\) grant](#) given for Charleston County's continuing participation in its [Project Impact Partnership Program](#), which aims to reduce local air and water pollution through public education programs.

"The TV show is part of an extensive educational campaign to provide information and assistance to our citizens on ways to reduce pollution and improve our air and water quality in order to protect the environment for future generations," said Carl Simmons, Charleston County's Building Inspection Service Department Director who oversees the County's Project Impact program.

Guests and panelists will appear on the show, including experts and scientists on the local, state and national level.

SIDEBAR: Background information on EPA's CARE Grant and Charleston County's Project Impact

- EPA's award is part of EPA's Community Action for a Renewed Environment (CARE) program, a community-based, community-driven program that builds partnerships to help the public understand and reduce toxic risks from numerous sources.
- Since the program was established three years ago, CARE has provided a total of \$7.75 million to more than 49 communities nationwide. The Charleston County CARE project is one of just five awarded in the southeast region.
- The Charleston County's Project Impact Partnership program was formed in 1999 with the help of a Federal Emergency Management Agency grant. There are now 172 local partnership members who focus on making the Charleston County communities more disaster resistant, including undertaking environmental improvement endeavors.
- Project partners previously conducted the Charleston Region Toxics Risk Assessment and identified particulate air pollution and ground level ozone as priority air toxics risks, and fecal coliform bacteria, petroleum product releases and trace metals as priority water pollutants in the Charleston County area. Through the CARE project, project partners aim to heighten local residents' awareness of these air and water pollution sources and encourage actions that individuals can take to reduce pollution.
- Established in 2005, CARE is a competitive grant program that offers an innovative way for communities to organize and take action to reduce toxic pollution in their air, land and water. By joining forces, for-profit and non-profit organizations can work together to improve the environmental health of a community and its residents.

Visit the EPA CARE Web site at www.epa.gov/care or Charleston County's web site <http://www.charlestoncounty.org/Departments/BuildingServices/care.htm> to learn more about the CARE program.

To schedule a presentation on environmental quality and pollution issues, local groups can contact [Charleston County Government's Building Inspections Department](#) at (843) 202-6940.
