ITEM ONE: QUESTIONS AND ANSWERS

1. I was reading through the consolidated plan and was trying to see if we would qualify for a grant through this opportunity. Under the goals, it talks about direct services to low-income families that would help with houses. I was wondering if we could request funding that would provide mortgage or rent assistance for families with a child diagnosed with cancer living in Charleston County? Can you please advise?
- Please review funding priorities located in the PY25 RFA instructions starting on page 18. [Request for Applications](#)
